OFFICES THROUGHOUT THE CIVILIZED WORLD

EXECUTIVE OFFICES, 346 and 348 BROADWAY, NEW YORK CITY, U.S.A.

THE BRADSTREET COMPANY gathers information that reflects the financial condition and the controlling circumstances of every seeker of mercantile credit. Its business may be defined as of the merchants, by the merchants, for the merchants. In procuring, verifying and promulgating information no effort is spared, and no reasonable expense considered too great that the results may justify its claim as an authority on all matters affecting commercial affairs and mercantile credit. Its offices and connections have been steadily extended, and it furnishes information concerning mercantile persons throughout the civilized world.

Subscriptions are based on the service furnished, and are available only by reputable wholesale, jobbing and manufacturing concerns and by responsible and worthy financial, fiduciary and business corporations. Specific terms may be obtained by addressing the company at any of its offices.

"THE PLACE OF MEETING"

A Few Facts and Figures—Capital of Ontario. Second largest city in Canada. The city of homes. Hive of manufacturing. Annual production of $300,000,000. Wholesale jobbing centre of Canada. Mecca of trade and commerce. A popular resort for tourists. Centre of lake passenger traffic. The city of 57 parks. Seat of Canada's largest university (Toronto University). Educational centre of Canada. Legal and judicial centre of the Province. Automobile centre of Canada. Home of the largest departmental store in the British Empire. Rail connections with three transcontinental railways. A one-night ride from any of the centres of population in Central Canada or in the Central and Eastern States.

POPULATION 562,585

Toronto was first settled by the French in 1759, as a fort and trading station, with the name of Fort Rouille, in honor of the French Colonial Minister. Later in the same year it was captured by the British after a brisk encounter with its French occupants, who, before abandoning the fort, reduced it to ashes. The British promptly changed its name to York, as tribute to the Duke of York, son of George III., by which name it was known until it adopted the name of Toronto in 1834, which in the Indian tongue means "A Place of Meeting." The name was a tribute to the earliest characteristics of the locality, for in the days prior to the advent of the pale-faces, it had been the terminal point of several Indian trails running between Lake Huron and Lake Ontario. Toward the close of the eighteenth century it became the Capital of Upper Canada, and after Confederation the Capital of Ontario.

During the war of 1812-14 the town was bombarded by the United States troops and gunboats. The enemy landed and burnt the Parliament Buildings, but was soon forced to evacuate. From the conclusion of the war in 1814 the town grew rapidly, and the progress begun then has never since been halted. When Toronto was incorporated as a city in 1834 its population was given as 9,300; since then it has doubled its population every 15 years until recent years, when the increase has been at an even greater ratio. Its inhabitants are more largely Anglo-Saxon than those of any other city on the continent of North America.

HOW CITY HAS GROWN

By mens of judicious annexation of adjoining municipalities Toronto's acreage has increased from 5,297.7 acres at the time of incorporation to 25,500 acres in 1918. The first section to be taken into the new city of Toronto was Yorkville, in 1883. Three years later North Rosedale was added. In 1888 the section lying north of Bloor and west of Bathurst streets, known as Seaton village, was taken in, and Parkdale was included the following year. During the next ten years some additions were made to the western extremities of the city and more land was added to North Rosedale. In 1908 the city reached out northward and annexed Deer Park, the Baldwin Estate and also added East Toronto. Next year Wychwood and Bracondale, West Toronto, Midway and Balmy Beach were included, while the following year saw Dovercourt and Earlscourt within the city limits. Between 1912 and 1914 the following sections came under the administration of the city: the Helliwell Property, Montclair district, North Toronto, Moore Park and the Glebe Estate.

TORONTO'S PART IN THE GREAT WAR.

Given 65,000 men for overseas service.
Given over 5,000 of her sons in battle.
Given $3,500,000 in insurance on slain soldiers.
Suffered casualities totalling over 25,000.
Paid death claims of $1,000 on 3,537 soldier's lives.
Given for all war purposes total of about $30,000,000.
Incurred civic war obligations of nearly $12,000,000.
Made munitions for Allies of about $200,000,000 value.

INDUSTRIAL

ADVANTAGES OF LOCATING IN TORONTO.

As an Industrial and Commercial centre, Toronto stands in the front rank in view of the fact that mainly on account of its geographical location it is the logical distributing point for the Province of Ontario.

There are approximately 1,400 manufacturing establishments in the City employing in the neighborhood of 85,000 employees. The amount of capital invested is about—$250,000,000, with an annual payroll of $60,000,000, and an annual production of approximately $300,000,000.

These manufactures range from the ordinary household pin to trans-Atlantic and lake boats.

Toronto has within its City limits and within a few miles radius of the centre of the City what is recognized as the finest labor market on the American continent. The workers as a whole are an intelligent class of citizens, and are far above the average in this respect.

Toronto had not up to a short tme ago properly recognized the importance of providing adequate industrial sites for prospective industries nor the necessity of instituting a campaign with a view to inducing American and other foreign industries to locate branch plants in this City. However, in 1918, the City Council appointed an Industrial Commissioner in the person of Mr. E. L. Cousins, Chief Engineer and Manager of the Toronto Harbor Commissioners, who was given authority to go out into the highways and byways and submit the advantages Toronto had to offer in the way of sites, labor market and distributing and consuming markets for their goods.

In this connection the Toronto Harbor Commissioners as a part of their development scheme are providing an industrial district within 1½ miles of the business centre of the City of approximately 750 acres which district when finally completed will be absolutely the most comprehensive of its kind on the continent. Both rail and water shipping facilities are being provided, the scheme calling for rail connection with the three Canadian transcontinental railroads. There will be no interswitching charges on any shipments into the district.

The Harbor Commission is providing for the efficient co-ordination of rail and water borne traffic and this will provide facilities for any industries locating in the district, unequalled today on the continent. Full information can be secured by addressing the Industrial Department of the Toronto Harbor Commissioners or the Industrial Commissioner of the City of Toronto, who will be only too pleased to give information relative to any available industrial site in the City.

Toronto's population based on the last decennial census and a careful comparison with the number of names contained in this Directory stands on January 1st, 1920, at

562,585

Toronto contains 1,790 streets and 102,225 buildings of all kinds, as shown by the Street Guide section of this Directory. Including houses and factories in course of construction there are 1868 shown as vacant.

The area within the city limits, not including the portion of the city land covered by water, is 25,732.6 square acres.

There are 533.39 miles of streets and 140 miles of lanes, 565.47 miles of sewers, 587.6 miles of water mains and 6,556 hydrants. The average quantity of water pumped in 24 hours during 1919 was 62,490,000 gallons.

The births, marriages and deaths in Toronto for the past six years were as follows:—

Year.	Births.	Marriages.	Deaths.	Year.	Births.	Marriages.	Deaths.
1913	14,100	6,422	6,947	1917	12,517	5,206	6,186
1914	14,500	6,007	6,397	1918	12,195	4,960	8,136

1916	12,866	5,739	6,553				

TRANSPORTATION

Toronto's transportation facilities comprise rail, both steam and electric, water and motor truck. The steam roads running into Toronto are the Grand Trunk Railway, Canadian Pacific Railway and Canadian National Railwys, which roads connect with all the railroads in the eastern and central parts of the United States.

The radial electric railways running into Toronto are the Toronto and York Radial, the Metropolitan and Toronto Suburban Railways. It is expected that within a short time the proposed Hydro Radials will be operating into Toronto, covering the western, central and eastern parts of the Province of Ontario.

Toronto being a lake port, and with the development scheme being carried out by the Toronto Harbor Commissioners, will have water shipping facilities for handling this class of traffic second to none on the continent.

The express companies operating in Toronto are the Canadian Express Co. on the Grand Trunk, the Dominion Express Co. on the Canadian Pacific, and the express service operated by the Canadian National Railways now known as the Canadian Northern Express Co. Freight, of course, is handled in ever increasing quantities by all the railways and the water transportation companies running lines of boats up and down the Great Lakes. Likewise His Majesty's Mail is carried by all the steam railways operating into Toronto.

There are several motor transport companies carrying on business between Hamilton and Toronto and surrounding towns, which business will no doubt increase considerably when the proposed new Provincial Highways are completed.

FINANCIAL

BANKING

There are located in Toronto at the present time 14 of the chartered banks of Canada, with 174 branches of these distributed throughout the city.

There are also a large number of trust, loan and savings companies in the city who carry on a large banking business.

The yearly clearings of the banks in the city as given by Toronto Clearing House during the past five years were as follows: 1915, $1,885,956,257.00; 1916, $2,571,535,613.00; 1917, $3,004,785,565.00; 1918, $3,379,864,506.00; 1919, $4,251,644,303.00. Showing an increase of $871,779,797.00 over 1918.

CUSTOMS

In order to emphasize the importance of Toronto as a commercial distributing centre we have only to turn to the Customs' returns for duties paid during the fiscal year of 1919-1920, ending February 29th, 1920. These are as follows:

EDUCATIONAL

No other city in America is better equipped than Toronto with facilities for carrying on the work of national education in all its stages. For elementary school work there are two boards of management, "the Board of Educa-

tion" and the Roman Catholic "Separate School Board." The functions of these two school boards run parallel through the "public school course" of study prescribed by the Ontario Department of Education, but all secondary education is put under the jurisdiction of the Board of Education, on which the Separate School Board is represented by two appointed members.

PARKS SYSTEM

General Facts.

The area of the City of Toronto is 32 square miles.

The land area of the parks of the city is 1,469.66 acres, and the water area 400.22 acres, a total of 1,869.88 acres.

The number of persons to each park acre is 262.

The total per capital cost of all park services is $1.15.

The annual maintenance cost per park acre is $2.90.

The total expenditure upon the acquisition of park lands to date amounts to $2,951,691.

The present value of park and playground lands is estimated at $13,942,857.

The value of the various buildings under the jurisdiction of this department, including Exhibition buildings is $2,609,900.

The park area devoted to supervised playground purposes is 14.25 acres.

The park area devoted to athletic games, including summer and winter sports, is 103.35 acres.

Parks Department

Toronto can well boast of its park areas. In Queen's Park and High Park the city has two of the finest natural parks in Canada. The park area includes 51 Parks.

The Parks Commissioner, Charles E. Chambers, has adopted the principle of a five percentage park area for every acre of land, maintaining that the density of population system is not the proper basis for park land schemes. He has also defined types of parks. For instance, the General Purpose Park, the Neighborhood Park, and the Decorative Spuare, and Play fields, and Equipped Playgrounds.

Sixty-three Mile Driveway

The Commissioner has under plan a 63-mile boulevard driveway (including park driveways) which he hopes to have the City Council concur in shortly. The main boulevard will encircle the city. The stretch encircling the city will be 33 miles long, and the internal driveways will cover 30 miles. It will cost approximately $7,000,000, and will surpass anything of its kind on the continent. It will have a varying width from 100 to 500 feet.

It is a pleasure to present to the users of the Toronto City Directory our 1920 issue, which we have endeavored to make not only the best edition issued by us to date, but one that will stand the test of being amongst the best and most complete city directories on the continent.
